November 3, 2014

Dear Sir or Madam:

Please submit the following for renewal of your Plumber License for 2015. Failure to comply will prohibit the issuance of license or permits/inspections in the Village of Depew.

1. The enclosed "Application for Plumber's License" – Please write legibly, answer all questions, include complete mailing address with Zip Code and sign the document on the signature line.
 - a. **ANY and ALL individuals who will be working in ANY plumbing capacity in the Village of Depew must be licensed.** Journeymen must be listed under a Master Plumber.
 2. Fee: For 2015, the fees are listed on enclosed application payable by December 31, 2014 and will secure your license through December 31, 2015.
 3. New York State rules require that you show the Village of Depew:
 - a. A Certificate of Insurance showing separate Worker's Compensation policy number, separate Disability Policy Number and separate liability policy number with expiration dates. Certificate holder is to be the Village of Depew.
Please note that ACORD forms are NOT acceptable proof of New York State Workers' compensation or disability benefits insurance coverage.
- OR
- b. Form CE-200 completely filled out and filed with Worker's Compensation. Form may be completed online with the NYS Workers Compensation Board (www.wcb.ny.gov/) if you are not required by Law to carry Workmen's Compensation and Disability.
 - c. **No Licenses or Plumbing Permits will be issued if you do not file the above documents with your application and fee. Do not send partial packages of required documents, they will not be processed.**
4. At this time the Village will not be holding our own test. ***Please provide a photocopy of at least one current, valid plumber's license that was issued by neighboring municipalities; examples are the Town of Amherst, Town of Cheektowaga, or Town of Clarence.***
 5. Any plumbers performing work in the Village of Depew without a permit will have their licenses revoked.
 6. If you are pulling a permit for another Plumber/Company that is not licensed in the Village of Depew you will be held responsible for all activities under that permit.

You must call 24 hours in advance to inspect excavations and for final inspection on all Permits. All sidewalks that are disturbed shall be repaired in a timely manner.

Sincerely,

Carmi M. Poss

Enclosure

VILLAGE OF DEPEW

SEWER LATERAL REPAIR REQUIREMENTS

§ 187-19 Construction to conform to rules and regulations.

The size, slope, alignment, materials of construction of a building sewer, and the methods to be used in excavating, placing of the pipe, jointing, testing and backfilling the trench, shall all conform to the requirements of the building and plumbing code as set forth in appropriate specifications of the ASTM and WPCF Manual of Practice No. 9; and PVC pipe in accordance with ASTM D-3034 SDR 35, or SCH 40, Asbestos Cement Pipe, or Asbestos Cement Pipe in accordance with ASTM C-428 for sanitary sewers service shall cover size of all pipes used in normal sewer extensions and subdivisions and trunk lines and laterals.

§ 187-20 Required elevation of building sewer.

The building sewer shall be brought to the minimum of 10 inches above cellar floor. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by such building drain shall be lifted by an approved means and discharged to the building sewer.

§ 187-21 Drainage connections to sanitary sewers prohibited.

No person shall make connection of roof downspouts, foundation drains, areaway drains or other sources of surface runoff or groundwater to a building sewer or building drain which in turn is connected directly or indirectly to a public sanitary sewer unless such connection is approved by the Superintendent for purposes of disposal of polluted surface drainage.

§ 187-22 Standards for connection to public sewer.

A. Applicable rules and regulations. The connection of the building sewer into the public sewer shall conform to the requirements of the building and plumbing New York State Uniform Fire Prevention and Building Code or other applicable rules and regulations of the Village, or the procedures set forth in appropriate specifications of the ASTM and the WPCF Manual of Practice No. 9. All such connections shall be made gastight and watertight and verified by proper testing. Any deviation from the prescribed procedures and materials must be approved by the superintendent before installation.

B. Superintendent to inspection connection. The applicant for the building sewer permit shall notify the Superintendent when the building sewer is ready for inspection and connection to the public sewer. The connection and testing shall be made under the supervision of the Superintendent or his or her representative.

C. Guarding of excavations; restoration. All excavations for building sewer installation shall be adequately guarded with barricades and lights so as to protect the public from hazard. Streets, sidewalks, parkways, and other public property disturbed in the course of the work shall be restored in a manner satisfactory to the Village.

IT IS RECOMMENDED THAT ALL CLAY TILE LATERALS BE REPLACED IN THEIR ENTIRETY FROM FOUNDATION TO TAP.
